

# Introduction to Seniors For Climate

## UPCOMING WEBINAR NOTICE

Tuesday 28 May 2024 1530h Pacific

Register [HERE](#)

---

### Who We Are

We're seniors deeply alarmed by the climate crisis. One in four Canadians – we have outsized political, economic and social power. **And we vote!**

Our goal is to build a nationwide community of seniors to create a liveable future. We have a major role to play and we have motive, commitment and opportunity.

Along with our children and grandchildren, we face a climate emergency. We need faster and better climate action. **Later Is Too Late!**

### Our Action Plan

October 1st is [International Day of Older Persons](#) and [Canada's National Seniors Day](#). On this day, our goal is to act nationally on climate with actions that demonstrate our growing concern about the impacts of climate change and our desire to rebuild a healthy environment for future generations.

### Our Main Messages

- We're in a climate emergency. We need to act Now! Later Is Too Late!
- Let's be smart, sensible and efficient to soon phase out the use of fossil fuels for energy.
- Climate change affects our health - extreme heat, wildfires, floods, storms, droughts.
- Action on climate must be intergenerational. We're all in this together.
- We need to and can speed up transition to renewable power and clean energy.
- We're asking banks, pension funds and governments to divest from fossil fuel developers and producers. Instead invest in proven renewable energy methods.

### What You Can Do & and How We Can Help

Join this project of 5 climate organizations led by seniors – Suzuki Elders, Climate Action for Lifelong Learners (CALL), Grandmothers Act to Save the Planet (GASP), Climate Legacy and Seniors for Climate Action Now! (SCAN!). We can cooperate, support and work well together.
